# Company Profile

A leading global provider of access equipment and solutions for people working at heights

# 3S Lift is a Leading Global Supplier of Access Equipment & Services for People Working At Height

Founded in 2005, 3S Lift was listed on stock market in 2020. The company's compound growth rate of revenue and profit in 2022 exceeded 40%.

Headquartered in China, 3S Lift has subsidiaries in the United States, Germany, India, Japan, Australia and Brazil.

There are over 1,000 employees globally, including 300 technicians.

Thanks to our spirit of innovation, we have obtained over 100 global certificates in accordance with ISO and OSHA, and 130 Intentional patents.

The main market for 3S products is the wind industry and our solutions have been applied across 55 countries and over 5,000 wind farms.

**Offshore Crane**

**No. 1** in global sales  
**Evacuation and Rescue Device**

**No. 1** in global sales  
**Fall Protection System**

## R&D Capability

3S Lift has advanced R&D centers in Beijing, Dallas, and Hamburg, as well as a postdoctoral station in Beijing.

There are more than 300 R&D and technical staff in our company, which makes us a leading enterprise in the industry.

We have developed a three-tier testing system, from labs to factories and then to wind farms. Our products first go through simulation tests, then go through testing for key parts, and finally go through closed-loop shaping experiments to check the functions and performance under prototype tests, on-site complete machine function and performance tests, and actual wind farm tests.
